

RABBIT

16-18 OMEGA AMINO RABBIT PELLETS

Complete Feed for Show Rabbits.
GUARANTEED ANALYSIS

Protein, Minimum.....	16.00%
Lysine, Minimum.....	.87%
Methionine, Minimum.....	.27%
Crude Fat, Minimum.....	3.50%
Crude Fiber, Minimum.....	16.85%
Crude Fiber, Maximum.....	21.85%
Calcium (Ca), Minimum.....	0.60%
Calcium (Ca), Maximum.....	1.10%
Phosphorus (P), Minimum.....	0.47%
Salt (NaCl), Minimum.....	0.25%
Salt (NaCl), Maximum.....	0.75%
Vitamin A, Minimum.....	2,500 IU/lb
Vitamin D3, Minimum.....	500 IU/lb
Vitamin E, Minimum.....	40 IU/lb

INGREDIENTS

Forage Products, Roughage Products, Processed Grain By-Products, Roughage Products, Plant Protein Products, Flaxseed, Calcium Montmorellite, Cane Molasses, Calcium Carbonate, Salt, Choline Chloride, L-Lysine, Vitamin E Supplement, Bypass Methionine, Copper Sulfate, Yucca Schidigera Extract, Ferrous Sulfate, Zinc Oxide, Manganese Oxide, Sodium Selenite, Niacin Supplement, d-Calcium Pantothenate, Vitamin A Acetate in Gelatin, Vitamin D3 Supplement, Mineral Oil, Vitamin B12 Supplement, Riboflavin Supplement, Menadione Sodium Bisulfite Complex, Ethylenediamine Dihydrochloride, Lactobacillus acidophilus fermentation product dehydrated, Lactobacillus casei fermentation product dehydrated, Bifido bacterium thermophilum fermentation product dehydrated, Enterococcus faecium fermentation product dehydrated, Rice Hulls, Calcium Propionate, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Copper Amino Acid Complex, and Cobalt Glucoheptonate.

We have used collective terminology on our tags for formulation integrity. Please contact Rowe Nutrition LLC for more specific ingredient information.

OMEGA 17% HIGH FIBER RABBIT PELLETS

Complete Feed for Show Rabbits.

18% OMEGA

17% OMEGA HIGH FIBER

16% OMEGA

15% OMEGA 4-CLASSIC

16-18 OMEGA/AMINO LYSINE EQUALS 18% PROTEIN EQUIVALENT

16-18 OMEGA/AMINO B113 LYSINE PLUS BOVATEC FOR COCCIDIOSIS CONTROL

ROWE RABBIT FORMULATIONS can be used not only for show rabbits but commercial and pet rabbits as well. Choosing the correct product depends on the breeder's purpose in raising rabbits and goals he or she wishes to obtain.

Following is a list of nutritional benefits contained in **ROWE RABBIT FORMULATIONS**

- High levels of **ALFALFA MEAL**. Ask for a free sample, see and smell the difference compared to other major brands
- Complete feed, no additional feedstuffs are required
- Fixed formula. All Rowe formulations maintain the same ingredients in the same percentages continuously
- When fed properly **ROWE RABBIT FORMULATIONS** exceed all essential nutrients required in a Rabbit's diet
- No additional sources of protein, energy, vitamins or minerals required including salt
- Amino Acids added to improve levels and ratios of essential amino acids dedicated to improved milk production, feed conversion, muscle development, rate of gain and fur enhancement
- Yucca Schidigera Extract added for reduction of ammonia levels
- High quality fiber ingredients in addition to Alfalfa meal along with other proven nutrients to maintain gut health, stimulate gut motility and reduce fur chewing. Low fiber high starch diets result in gut hypomotility, reduced cecotrope formation and prolonged retention time in the hindgut which often results in enteritis. Enteritis is a primary gastrointestinal disorder and often results in diarrhea. This disorder is a result of an imbalance in normal microflora in the gut; this disorder is often caused by insufficient fiber and or too much starch in the diet. **ROWE RABBIT FORMULATIONS** contains no corn, high levels of fiber and additional nutrients to reduce the incidence of enteritis, improve the immune system and general rabbit health.
- Probiotics for increased digestion, balanced PH levels and general health benefits
- Chelated Trace minerals along with Organic Selenium Yeast for higher digestibility of these nutrients.
- Higher than normal levels of B-Complexes for health and production benefits
